

TECHNICAL DETAILS

Absorption : 1.08
Density: 154 LBS/FT3
Compressive strength: 9.290 AVG PSI
Resistance to Freeze Thaw: Passed

FEATURES

Elevate your outdoor spaces with NT Pavers' travertine pavers, the perfect blend of elegance and strength. Known for their stunning natural patterns and rich textures, these pavers add timeless beauty to any setting. Travertine's unique porous surface not only provides excellent traction but also stays cool underfoot, making it ideal for pool decks and patios. With unmatched durability, our travertine pavers withstand the elements and heavy foot traffic, ensuring your spaces remain beautiful for years to come. Choose NT Pavers' travertine pavers for an unparalleled combination of luxury, safety, and longevity.
