

NATURALSTONEPAVER2025COLLECTION

Located in Northern New Jersey,

NT Pavers is a premier supplier of the highest quality marble, travertine, porcelain, sandstone, and limestone materials, serving both interior and exterior design needs.

As dedicated quarry owners, we pride ourselves on delivering first-class stone, ensuring that each client receives the best possible product for their unique projects.

At NT Pavers, we collaborate with architectural and landscape designers, masons, and specialized stores to bring each client's vision to life.

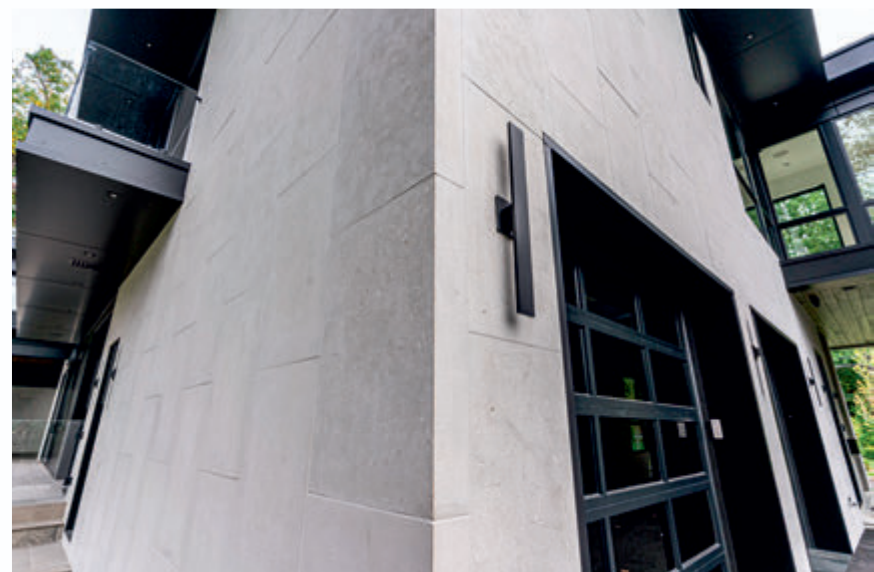

Our extensive product range includes premium natural stone and porcelain materials such as pavers, tiles, coping, veneer, ledger, mosaics, and slabs in large and medium formats, perfect for enhancing any space.

Our headquarters are located at 99 Ethel Ave, Hawthorne, NJ, with a second warehouse just five minutes away at 220 Goffle Road, Hawthorne, NJ. This proximity allows us to efficiently serve our clients while maintaining the highest level of service.

The Heritage Olive Limestone Sandblasted is one of the most beautiful natural stone pavers that feature light grey washed-out movement with a sandblasted finish. These sandblasted pavers are a great choice for outdoor applications such as patios, garden paths, and pools. It's dense, durable, and aesthetic making the most resilient and practical pavers for outdoor projects. The grey pallet offers a minimalist beauty that is mixed with a subtle olive tone. This is one of those natural stones that will meet a huge number of people's aesthetic requirements. Browse the latest collection for better ideas and more options.

ACCESSORIES

With a number of different options for customizing stone, your next project is only limited by your imagination

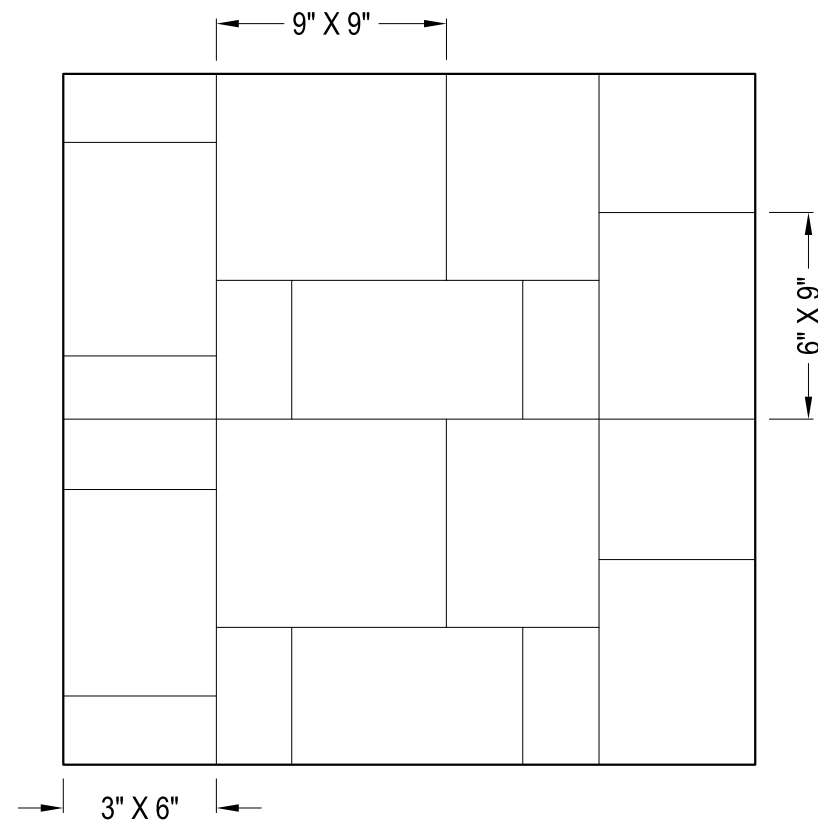

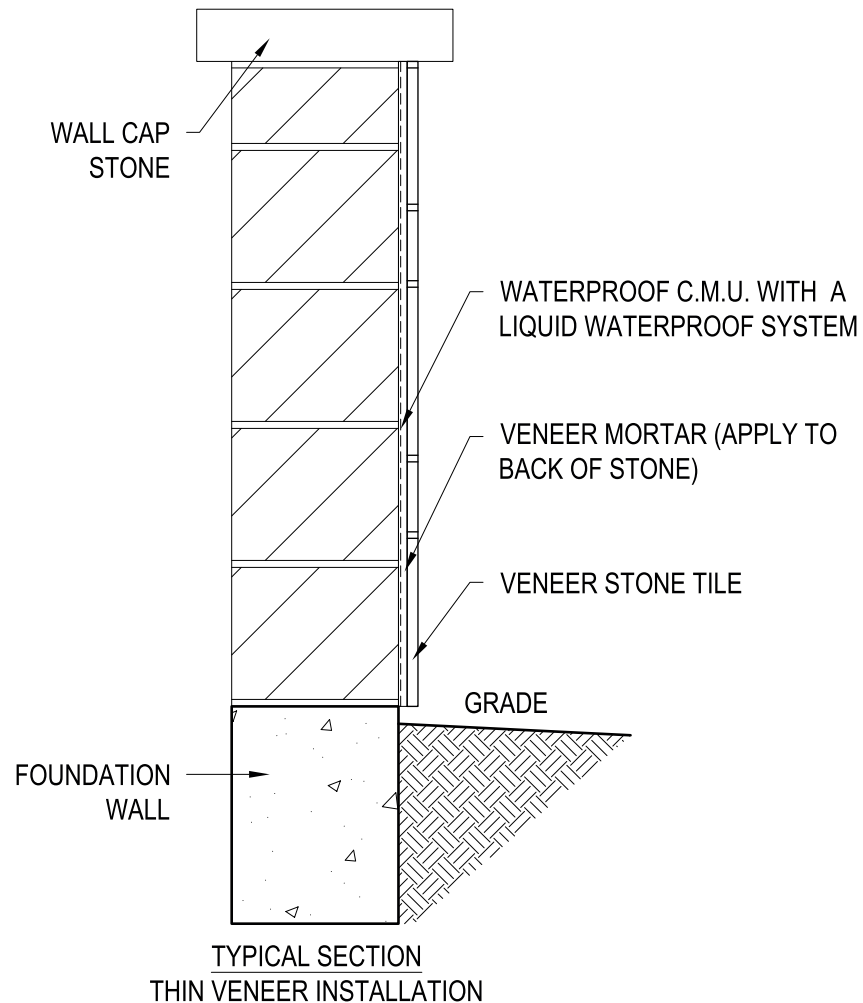

FOR ARCHITECTS AND DESIGNERS

Do Not Miss Your Chance to Get Specified

CADdetails empowers you with high-quality design files presented in an elegant design library.

We let you save time and stop losing sales. We streamline the process of architects and designers accessing your products' design files and getting specified into projects.

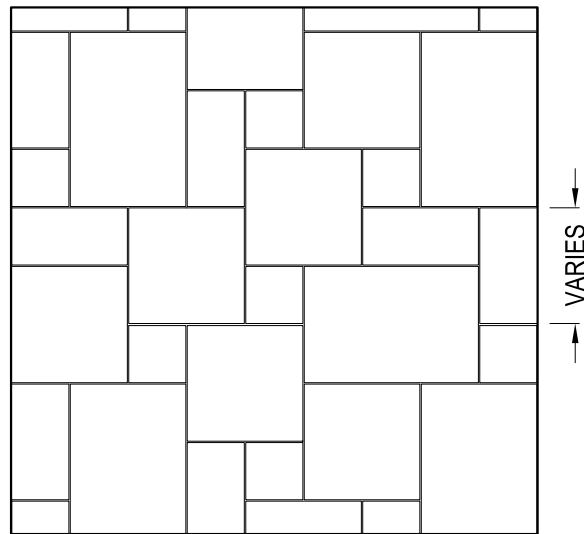

Don't be edged out of construction projects because you do not have the right design files in front of the right professionals at the right time. Book a call with us today.

FAQ FOR TEST RESULTS PAGE

Q: Can travertine pavers be used in East Coast weather conditions?

A: Yes, travertine pavers are suitable for East Coast climates. Our test results show they are resistant to freeze-thaw cycles, meaning they do not crack or deform in extreme temperatures, which are common on the East Coast.

Q: Is marble strong enough for backyard installations?

A: Marble is a durable stone and our test results indicate that marble pavers have high compressive strength, making them strong enough for various backyard installations such as patios, walkways, and pool decks.

Q: What does the 'Absorption' value mean in the test results?

A: The 'Absorption' value refers to how much water the stone can absorb. Lower values indicate less absorption, which is beneficial for preventing damage and deterioration, especially in freezing conditions where water can expand and cause cracking.

Q: Are the stones tested for slip resistance?

A: Yes, our stones have been evaluated for their dynamic coefficient of friction, which measures slip resistance. The stones we tested passed this test, performed by the Tile Council of North America (TCNA), an IAS accredited lab, ensuring they provide a safer surface when wet.

Q: What does the 'Density' figure mean, and why is it important?

A: Density, measured in pounds per cubic foot (LBS/FT³), indicates the compactness of the material. Higher density typically suggests greater durability and stability, making the stone more suitable for high-traffic areas.

Q: Can I use these stones around my pool area?

A: Absolutely. The stones have shown resistance to freeze-thaw cycles and possess good friction coefficients, making them suitable for pool areas where the surface can become wet and slippery.

Q: Will marble or travertine stain or fade over time?

A: All natural stones have the potential to stain or fade over time, especially if exposed to certain chemicals or prolonged direct sunlight. However, sealing the stone can help protect against stains and UV-resistant sealers can reduce fading.

Q: How much weight can natural stone pavers support?

A: Natural stone pavers can support a considerable amount of weight. Compressive strength is listed in the test results, with some materials supporting over 24,000 psi, indicating they can handle the weight of outdoor furniture, grills, and heavy foot traffic.

Q: Do I need to seal natural stone pavers?

A: While our natural stone pavers are durable, sealing them can enhance their resistance to staining and extend their lifespan. It is generally recommended, especially in areas subject to harsh weather or frequent use.

Q: Where can I get the full official test results for these stones?

A: Official test results documents are available upon request. Please contact us, and we will be happy to provide you with all the detailed information you need for your project.

Disclaimer Notice: The test results shown are from standardized laboratory conditions and might not account for the variability of real-world settings. Our company disclaims all responsibility for any differences between these results and the actual performance of our products. It is imperative that marble pavers be professionally installed and sealed to maintain their quality and resistance to weather. Responsibility for the correct handling, installation, and ongoing maintenance of these pavers lies with the installation professional, and our company shall not be held accountable for any issues that may arise post-installation.

TIMELESS WALNUT TRAVERTINE	0,98	161
ELLA TRAVERTINE	1,08	154
IVORY VANILLA TRAVERTINE	0,8	156
AFYON GLACIER ICE MARBLE (SB)	0,12	169
LUXE BLUE MARBLE (SB)	0,12	189
AEGEAN CREAM MARBLE (SB)	0,22	164
PIETRA GREY MARBLE (SB+AW)	0,08	170,6
SNOWSHADOW MARBLE	0,64	174
BLACK VELVET MARBLE	0,20	172,3

Resistance to Freeze Thaw		
Sample	Result	Note
HERITAGE OLIVE LIMESTONE	Passed	No crack or deformation
MANHATTAN SILVER TRAVERTINE	Passed	No crack or deformation
TIMELESS WALNUT TRAVERTINE	Passed	No crack or deformation
ELLA TRAVERTINE	Passed	No crack or deformation
IVORY VANILLA TRAVERTINE	Passed	No crack or deformation
AFYON GLACIER ICE MARBLE (SB)	Passed	No crack or deformation
LUXE BLUE MARBLE (SB)	Passed	No crack or deformation
AEGEAN CREAM MARBLE (SB)	Passed	No crack or deformation
PIETRA GREY MARBLE (SB+AW)	Passed	No crack or deformation
SNOWSHADOW MARBLE	Passed	No crack or deformation
BLACK VELVET MARBLE	Passed	No crack or deformation

Compressive Strength	
Sample	Dry - Avg Psi
HERITAGE OLIVE LIMESTONE	14,144
MANHATTAN SILVER TRAVERTINE	9,300
TIMELESS WALNUT TRAVERTINE	17,890
ELLA TRAVERTINE	9,290
IVORY VANILLA TRAVERTINE	18,310
AFYON GLACIER ICE MARBLE (SB)	14,550
LUXE BLUE MARBLE (SB)	15,050
AEGEAN CREAM MARBLE (SB)	22,090
PIETRA GREY MARBLE (SB+AW)	24,714
SNOWSHADOW MARBLE	23,091
BLACK VELVET MARBLE	20,199

Dynamic Coefficient of Friction by TCNA (IAS accredited lab)		
Sample	Result	
HERITAGE OLIVE LIMESTONE	0,66	/ Passed
MANHATTAN SILVER TRAVERTINE	0,66	/ Passed
TIMELESS WALNUT TRAVERTINE	0,73	/ Passed
AFYON GLACIER ICE MARBLE (SB)	0,77	/ Passed

AEGEAN CREAM MARBLE (Tumbled)	0,62	/ Passed
SNOWSHADOW MARBLE	0,71	/ Passed
BLACK VELVET MARBLE	0,84	/ Passed

Official Test Results documents will be provided upon request.

Disclaimer Notice: The test results shown are from standardized laboratory conditions and might not account for the variability of real-world settings. Our company disclaims all responsibility for any differences between these results and the actual performance of our products. It is imperative that marble pavers be professionally installed and sealed to maintain their quality and resistance to weather. Responsibility for the correct handling, installation, and ongoing maintenance of these pavers lies with the installation professional, and our company shall not be held accountable for any issues that may arise post-installation.

PACKAGING

Marble/Limestone Packaging Information

Product Size	Quantity In Crate/sqf	Quantity In Crate/pcs	Weight of Crate/lbs	Dimensions of Crate
6"x12"x 1 1/4"	200	400	3200	38 1/8" x 38 1/2" x 32 3/4"
16"x16"x 1 1/4"	117,5	66	1900	37 1/4" x 44" x 21 1/4"
16"x24"x1 1/4"	176	66	2850	37 1/4" x 45" x 29 1/4"
24"x24"x1 1/4"	132	33	2150	43 7/8" x 28 3/4" x 28 1/2"
24"x36"x1 1/4"	180	30	2950	42" x 42" x 30"
French Pattern 1 1/4" (8"x8",8"x16",16"x16",16"x24")	176	132	2850	37 1/4" x 44" x 29 3/4"
24"x72"x2" Mini Slab	120	10	3250	77 1/2" x 25 3/4" x 29"
Veneer Stone 4 x Mix Size (4"x8",4"x12",4"x16")	240 (2.8 sqft/bundle)	220	3100	48" x 40 1/2" x 36 1/2"
Veneer Stone Corner (4"x6"x1 1/4")	337	540	2100	41 1/2" x 31 1/2" x 29 1/2"
Veneer Stone Pattern 3"x6"x9"	121.5 (36 sets)	36 bundles/1 bundle = 3.37 sqft	1900	41" x 44" x 24"
Veneer Stone Pattern Corners 3"x6"	720 pcs	120 bundles/1 bundle = 10 pcs	1600	29" x 43" x 30"
Veneer Stone Pattern Corners 6"x8"	336 pcs	84 bundles/1 bundle = 4 pcs	1050	29" x 43" x 30"
Veneer Stone Pattern Corners 9"x9"	252 pcs	63 bundles/1 bundle = 4 pcs	1900	29" x 43" x 30"
6"x12"x2" Driveway Paver	80	160	2250	42" x 28" x 30"
6"x12"x2" Spa Poolcoping	80	160	2250	42" x 28" x 30"
12"x24"x1 1/4" Poolcoping	132	66	2150	29" x 46" x 31"
12"x24"x2" Poolcoping	80	40	2250	44" x 40" x 29"
12"x48"x2" Poolcoping	80	20	2250	53" x 47" x 26"
16"x48"x2" Poolcoping	106,66	20	2900	52 1/2" x 46 1/2" x 21 1/2"
12"x72"x2" Poolcoping	60	10	1650	76" x 24" x 15"
14"x72"x2" Poolcoping	70	10	1950	76" x 24" x 17"
16"x72"x2" Poolcoping	80	10	2200	76" x 24" x 18"
12"x72"x2" Eased Edge Coping	60	10	1650	76" x 24" x 15"
16"x72"x2" Eased Edge Coping	80	10	2200	76" x 24" x 18"
Ledger Stone 6"x24"	144	6 Pcs/Box 24 Box/Crate	1250	53 1/2" x 28 1/2" x 23 1/4"
Ledger Stone Corner	250	5 Pcs Box 50 Box/Crate	1150	42 5/8" x 42 1/2" x 24"

FULL CRATES MUST BE PURCHASED. THERE'S A FEE IF THE CRATE IS OPEN
